Cattle on Display: All sale cattle are at the ranch and we will invite you to stop prior to the sale to look them over and visit with us. Many of the mothers and sires will be nearby also. Sale cattle will be available for viewing in their display pens. They will not enter a sale ring. This will be a video sale.

Herd Health: All bulls will be tested for BVD. Our herd is Johnes Free. All sale cattle were vaccinated and boosted this fall with Bovi Shield 5 and Ultra One Shot 7 and treated again with Ivomectin pour on in December. Vet work by Dr. Peterson and Casselton Vet Service - 800-216-9985.

Supplement Sheet: More information will be available upon request one week prior to the sale and available sale day, including: Ribeye, back fat, marbling, pelvic area and scrotal measurements. Cattlemen,

Welcome to our Red Power Performance Tested Bull & Female Sale! This year we have a bonus offering of 6 Red Angus bred females and 5 Hereford bred females. We simply have more cows than we have room for. Thus we are offering this productive, young group of bred females as a special feature for this year.

Again we have a great group of powerful bulls and some really good heifers to choose from. Watch for our videos online in early February at: www.olsonredpower.com or contact us for a DVD.

Our family has been in the registered cattle business since 1936 and we are committed to providing you great Red Angus & Herefords that are productive, problem free and developed to last. Contact us if you have any questions.

Sincerely,
The Olsons
