86 Years
*of excellence in
registered cattle!*

~ General Sale Information ~

Sale Time: 1:00 CST, Thursday, February 17, 2022. Complimentary noon lunch.
Location: At the ranch. From Argusville on I-29: 7 West on Cass Co. #4, 1 North & ½ West. From Casselton on I-94: 10 North on ND #18, 5 West, 1 North & ½ East. 20 miles NW of Fargo.
Motels: Holiday Inn, Fargo 701-282-7200. Governors Inn, Casselton 888-847-4524.
Airline Service: Fargo Hector International Airport is served by United, American & Allegiant.
Delivery: Free delivery to central points up to 300 miles. We will work to facilitate further distances at cost. Take your bull home sale day and get \$50 off.
Wintering: We can keep your bull free of charge until April 1st, then we deliver.
Guarantee: All Cattle are fully guaranteed by the standards set by the American Red Angus and American Hereford Associations. Coming two-year-old and fall born bulls will be fertility checked prior to the sale. We will test yearlings before delivery of April 1st.
Terms: Terms of the sale are cash or check. Settlement must be made immediately following the sale before animals can be loaded out or delivered. Any corrections from the auction block or sale supplement sheet take priority over printed material in this sale catalog.
Liability: All attending the sale do so at their own risk. OHR assumes no responsibility for accident or injury.
EPD's: All EPDs are current as of Feb.1, 2022. As yearling weights, DNA results and scrotal measurements are recorded the EPDs may change by sale day. Registration numbers are provided so you can research animals further with the breed associations.
Cattle on Display: All sale cattle are at the ranch. We invite you to stop prior to the sale and look them over and visit with us. Many of the mothers and sires are also here. Videos of the sale offering with also be available at our website ahead of the sale. Cattle will be displayed in pens next to our heated sale facility. This is a video sale - cattle will not enter a sale ring.
Herd Health: Our herd is Johnes Free. All bulls will be tested for BVD. All cattle were Vaccinated and boosted with Bovi Shield Gold 5 and Ultra One Shot 7 at weaning. They Were poured with Ivomec at weaning and in December with CleanUp. Vet work supervised by Dr Darin Peterson, Casselton Vet Service - 800-216-9985.
Supplement Sheet: More info will be available prior to the sale including: Ribeye, Marbling, Back Fat, Scrotal cm and Pelvic Areas. Also at our website; www.olsonredpower.com.
Mail or Phone Bids: Bidders unable to make the sale may contact the Olsons or a sale staff member to assist in the bidding process. DVAuction will broadcast the sale live on the internet where you can watch and bid. Further info on that listed below.

This sale will be broadcast live on the internet.

1. Create an account at www.dvauction.com under the register tab.
2. Apply for bidding approval by clicking on the ""details"" tab at least 24 hours prior to the auction. A DV representative will notify you once you have been approved.
3. Tune in for the sale and make your purchases.
 - ~ High speed internet is required for successful bidding.
 - ~ Our full-time support team can be reached at 402-316-5460
 - ~ Or type a message to the operator during the sale.

Cattlemen,

This year we submitted DNA on all bulls in the sale to confirm parentage and genetically enhance the EPD profile. This will increase the accuracy of the numbers and give a clearer picture of an animal's true value. The Red Angus GGP data is back and posted in the catalog. The Hereford GE EPDs are not completed yet. We will post it on the website as soon as we get it.

Our shop burned down in March so we have a new heated shop to host the sale in. If you can't make the sale it will be broadcast on DVAuction and videos will be posted there ahead of the sale. We have some who buy sight unseen - We guarantee you satisfaction!

This year's offering is smaller in numbers but the top end quality is still there. Many of the bulls are well suited for use on heifers! We did not catalog any bred females this year but plan to have some Red Angus and Hereford bred females for sale privately.

Our family has been in the registered cattle business since 1936 and we are committed to providing you great Red Angus & Herefords that are productive, problem free and developed to last. Contact us if you have any questions.

*Sincerely,
The Olsons*

Here's the youngest of the coming 2 year old bulls. More moderate in size than some of the others but has plenty of depth and muscle shape. If you like them dark colored, stout and well muscled he might be the bull for you. Another good productive dam here also (106 MPPA)!

Videos of the sale offering
will be posted on our website:
www.olsonredpower.com

Olson's Red Power Advantage:

- + More performance, muscle & maternal excellence.
- + Carcass, performance, scrotal & pelvic data available.
- + Bulls tested for BVD & from Johnes Free herd.
- + Bulls developed on roughage ration to ensure soundness.
- + Free wintering on bulls over \$2500, 300 mile delivery.
- + \$50 discount if you take your bull home sale day.
- + Reputation breeder of quality registered cattle since 1936!

A-BAG-A-BULL

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP "yellow tags" are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.

Well built, fully pigmented, dark colored son of Masterplan. DNA shows him as homozygous polled but we don't have GE EPDs yet. For now he is top 5% for YW, Milk and M&G. Z14 is mother of herdsire Deluxe, higher seller Homebrew and the dams of lots 58 and 60 fall bulls - (She has 105 WWR in production). Big potential here!

Selling ½ interest and full possession.

Full brother to bull above and a lot like him in design, dark color and full pigmentation. He came back heterozygous polled and is a little lighter on weights. Dam side of pedigree is stacked with great female producers - Upgrade, 719T, P606 and Tank. Grandmother pictured below has excellent udder quality and was a donor for Kitchell & Crum.

Sire of lots 66 & 67

Heifer Bull with a powerful EPD profile and a very productive mother. Dam has a 106.3 WWR on 6 calves and is mother of Boss who we used for a year and is now working for Prause Herefords in Texas. This is the same great cowfamily as lot 65 - grandmother has 104 ratio in production and GGD a 106! 24X grandsire sold for \$10,000 - he adds the power. 5% or better for WW, YW, Milk and M&G

Boss G6 -22 months

Good son of the Boss bull pictured above with a some extra length and nicely made structure. Georgie Girl females are more moderate but attractive and great uddered with smaller teat size. Looks like he could be a heifer bull but lets wait for the GE EPDs. Currently he's in the top 10% for YW, Milk and M&G.

GE EPD's were not back for the Hereford bulls when we sent the catalog to print. We will post them on the website when they come in and provide an updated list for sale day along with the supplement sheet. Videos will be there also. Go to: www.olsonredpower.com

We have been using VitaFerm products in our herd for many years. It helps with the fertility and efficiency of our herd.

Very good, correct heifer with nice performance, balanced numbers and a great pedigree! Dam is a first calf heifer by Trump that started her production with a 109 ratio on this girl. Grandmother is the great 37W donor and DOD with production ratios of 94.7 on BW and 105.6 on weaning. This heifer is a breed improver for 15/20 traits and top 10% for WW, CEM, REA. Top 15% for YW, M&G, Marbling.
