Performance Breeders**

**OHR Red Angus  
Lloyd Red Angus  
Gerner Red Angus  
Olson Hereford Ranch**

## — General Information —

**Sale Time:** 1:00 CST, Thursday, February 19, 2004  
A noon lunch will be served on sale day.

**Location:** Main Arena of the North Dakota Winter Show Building in Valley City, ND — just north of Interstate 94 at exit 292 and up hill one mile.

**Motels:** Headquarters — AmericInn 701-845-5551

**Delivery:** Free delivery to central points up to 300 miles and further distances at cost. Take your bull home sale day and get \$50 off.

**Free Wintering until April 1st:** of any bull purchase of \$2,000 or more.

**Guarantee:** All cattle are fully guaranteed according to the standards set by the American Red Angus & American Hereford Associations.

**Terms:** Terms of the sale are cash or check. Settlement must be made immediately following the sale before animals can be loaded or delivered. Every animal sells to the highest bidder. Any correction from the auction stand takes precedence over printed material in the catalog.

**EPDs:** All EPDs are current as of Jan. 7, 2004. Registration numbers are provided so you can research animals further at breed websites:  
[www.redangus.org](http://www.redangus.org) or [www.hereford.org](http://www.hereford.org)

**Cattle on Display:** All sale cattle will be available for viewing from 3 to 7 PM on Wed., February 18 and 9 AM to 1 PM Sale Day in the comfortable ND Winter Show Building — parking on North and West ends. Each breeder will be caring for their own animals prior to the sale. We invite you to stop and inspect the cattle in their native setting.

**Supplement Sheet:** More information will be mailed one week prior to the sale and made available sale day, including: Rib Eye Area, Back Fat, Marbling, Pelvic Area and Scrotal Measurement, EPDs, Birth Wt., Weaning Wt. and Yearling Wt. are all provided in the catalog. We hope to provide you with the most accurate information possible so when you see the bulls you can make the best decision for your program.

**Mail and Phone Bids:** Bidders unable to make the sale may contact the sale staff or make prior arrangements to be on a sale day phone.

**Dear Cattlemen,**

Welcome to the RED POWER PERFORMANCE BULL SALE on Thursday, February 19th. We are your Northern source for quality bulls: OHR Red Angus, Lloyd Red Angus, Gerner Red Angus and Olson Hereford Ranch. We are 4 breeders with one goal of "Genetic Excellence." We share many of the same thoughts, goals and exciting vision for the future of the beef cattle industry.

The sale offering includes: 56 High Performance Red Angus Bulls, 21 Select Red Angus Heifers and 10 Excellent Polled Hereford Bulls. We have selected only the best bulls so that the highest quality can be made available for your selection. Performance is priority, but the sale offering will include: Calving ease, high maternal, superior carcass and growth bulls (many will excel in most traits.) Every effort has been made to bring you the highest quality bulls backed by the most accurate information possible so you can select the best bull for your breeding program.

As the catalog gets mailed out the testing continues. A supplement sheet with a sample of the bulls and heifers selling will be mailed to you a week before the sale with additional data including: Carcass Data from Ultrasounding, Pelvic Area, and Scrotal Measurements.

Should you need additional information please feel free to contact any of us. See you on the 19th.

Sincerely,  
Red Power Performance Breeders

## The Red Color of Red Angus Has 3 Distinct Advantages

- 1.) Red is the most populous color of cattle breeds world wide. Red Angus provides a continuity and uniformity of color to any crossbreeding system.
- 2.) Red is more heat tolerant than black and the bronze pigmentation gives great resistance to cancer eye and sunburned udders. The majority of the world's cattle are in areas that need heat tolerance, so the red color is a definite advantage.
- 3.) Being crossed red always breeds true. Red Angus carry no diluter genes and thus avoid the grays that result when crossbreeding with blacks.

*Red Angus Bulls make a great cross with many breeds to increase fertility, improve calving ease, moderate mature frame type, add maternal excellence and improve efficiency. Red Angus Bulls are known to work especially well on Simmental & Charolais heifers. Calving ease and fertility are important because if the calf dies at birth or if the cows are open, there's nothing to wean. There are many Red Angus feeder calf sales to help you gain an additional premium for those Red Angus sired calves. Put the RED FACTOR to work in your program!*

**We Have What Everybody Wants,  
The Respect of the  
Entire Cattle Industry...**

**...and it's not because of the color of our hide.**

# OHR Red Angus Lots 1-27

We are proud to offer you the most powerful group of bulls we've ever raised. They are very uniform and deep in quality with extra muscle, performance, structural soundness, calving ease and eye appeal. They are backed by productive problem-free mothers from strong cow families. Part of our offering is from OHRR Dakota Copper 29K - 2000 NILE Bull Calf Champion. These bulls have been developed on a roughage based ration to give you a very sound, good footed bull that will do well and last!

Can't say enough about this hard working cow. Daughters were chosen for the ND Red Select Sale in '01 and '02. Both sold near the top of the sale. Dam's MPPA is impressive 104. Red Bakers Century was twice Agribition champ bull. 5N was a member of the Grand Champion pen of Red Angus bulls at the '03 North Star Classic show in Valley City in Dec. This bull has it all: low BW, high WW, excellent phenotype & disposition & dark cherry red color. **Herd bull here!**

First calf heifers like 48L are what make our business especially exciting from year to year. She's done it all on her first try! She's a granddaughter of our A925 cow who at age 12 keeps going & going (MPPA 103). A herd bull should come from a long line of great females — 7N does!! Dam has earned MPPA of 103 on her first calf. Out of 29K — our meat, milk, low BW, great disposition sire! **Herd Bull here!**

Our oldest original cow (1991) is like a Duracell still going and going and keeping up with the young cows. She has produced herd bulls and replacement heifers. One heifer was Champion Red Angus at Watertown and sold to Jerry Engstrom of Waubay, SD. Explorer sired many top billing bulls in our '03 sale. All '02 heifers by him were replacements in our herd.

ET — your last chance to buy a sire out of our great 118 Casey cow from Panhandle. She has done a great job. We flushed her once resulting in 8 ET calves from 9 planted eggs. She has left 5 replacement females. A full sister was a high seller at Nebraska Cattlemen's Classic sale in Kearney, NE in '01 to Kevin Berke at Cozad, NE. A maternal brother was in the Supreme Champion pen at BHSS in 2000.

## Red Angus Heifers - Lots 57-77

We are offering 21 excellent, top quality Red Angus yearling registered heifers. These heifers are from productive, trouble free cows with good feet and udders. They are the kind we'd like to buy! A number of these heifers are SHOW QUALITY! The heifers have not had extra care but have been developed on a roughage diet as if we would be keeping them for our own replacements. Lots 57 to 70 are from OHR Red Angus. Lots 71 to 77 are from Lloyd Red Angus. Here's an opportunity to select females from the area's top breeders!

### Special Offer

ND Red Angus Field Day — June 2004  
to be held at OHR

A special class for heifers purchased in the Red Power Sale will be held with the following prize money: 1st place, \$150; 2nd place, \$100; 3rd place, \$75; 4th place, \$50.

**Sale crowd at last year's sale.**

## The Hereford Advantage

Hereford Bulls cross very well with Angus base cows to produce the beef industry's most ideal females — the F1 baldy. To gain true efficiency and reap the benefits of hybrid vigor use a Hereford bull on your black females.

Consider this:

- Hereford Bulls Last Longer
- Herefords have #1 Disposition
- Herefords are Efficient & Hardy in the North

### Hereford Average EPD's for 2002 born calves.

## Kodiak... "Carcass Bull Supreme"

VCR East Kodiak 506E is a Trait Leader for 5 important and highly heritable traits: Ribeye, Marbling, Weaning Weight, Yearling Weight and Scrotal. He ranks in the top 1% for REA and the top 10% for Marbling — a rare combination. Kodiak is one of the breed's premier sires and we are proud to have him in our pasture.

We have a group of 6 heifer calves and 10 cows for sale private treaty. Many of these cows are bred to Kodiak.

# Olson Hereford Ranch - Lots 78-87

North Dakota's oldest active Hereford breeder. We began in 1936 and have been leading the way in Polled genetics for the past 38 years. Our sale offering has "something for everyone." Our bulls are backed by strong, productive cows - most of them are pictured. Many of our bulls are well suited for use on heifers. Many are from our senior herd sire Kodiak, "Carcass Bull Supreme," a five trait leader.
